ABOUT ME

Detail-oriented and creative Computer Science student with a strong passion for UI/UX design and front-end development. Skilled in crafting responsive web and mobile applications using React, HTML, CSS, and JavaScript, and experienced in designing intuitive user interfaces through Figma and modern design systems. Combining a designer's eye for aesthetics with a developer's problem-solving mindset, I strive to create digital experiences that are both visually engaging and highly functional. Constantly exploring emerging technologies, I aim to bring innovation and user-centered thinking to every project I work on.

EDUCATION

SRI VENKATESWARA COLLEGE OF ENGINEERING AND TECHNOLOGY   2022-2026
Affiliated with Jawaharlal Nehru Technological University Anantapur
Bachelor in Computer Science & Engineering

UNITED ACADEMY   2020-2022
+2 in PCMB

SKILL

- **Programming Languages**

  Java, Python, C#, Html, CSS, Javascript

- **Tools**

  Figma, Wix Studio, Git, Github, Firebase, Android Studio

- **Framework**

  React js, Tailwind CSS, Bootstrap

- **Database**

  MySQL, MongoDB, Firebase

- **Web Design and Development Methodoligies**

  Responsive Web Design, UI/UX Design Best Practices, Wireframing & Prototyping (Figma / Adobe XD), Website Performance Optimization

PROJECT EXPERIENCE

Full Stack Development Intern   JUNE-AUGUST ,2024

IIDT with APSHE and Blackbucks Engineering virtual Internship
- Developed and deployed responsive web applications using HTML, CSS, JavaScript, and MongoDB.
- Built interactive UI components with React.js, improving user engagement.
- Optimized database queries, enhancing website performance by 30%. Deployed applications via Firebase for scalability and reliability

Budget Tracker

Created a collaborative expense management platform supporting multiple shared rooms with secure invitation systems, real-time transaction tracking, in-app messaging with push notifications, and comprehensive spending analytics with interactive visualizations .

Portfolio website

A showcase of my journey in web development — crafting responsive and interactive experiences using HTML, CSS, JavaScript, and React, with a focus on clean design and seamless user experience using figma.

TO-DO List APP

- Goal: Users can add, edit, and delete tasks.
- Focus: Clean layout, intuitive buttons, and color coding for task priority.
- Tip: Mobile-first design is a plus

Attendence App

Designed in Figma with a high-quality UI, this attendance tracking app offers an easy and intuitive way to mark attendance, view clear dashboards, and access historical records all within a clean, mobile-friendly interface.

CERTIFICATION

- Full Stack Java Development
- Frontend Web Development (Google, Microsoft, DevTown)
- Backend Development with Node.js & React
- UI/UX Developer L&T
- Project Management
- Cloud Computing Fundamentals
- UI/UX expert GUVI / HCL

LANGUAGE

- Nepali
- English
- Hindi
